

NEW QuietStream™ A/C For 2015

adventure, inspired by

AIRSTREAM

Airstream's new QuietStream™ A/C distributes air through dual ducts and multiple vents with return vents making the system much quieter and more efficient. QuietStream™ eliminates the A/C unit inside allowing more head room and a sleeker look.

Standard in all 25ft and larger models for 2015

Overview

adventure, inspired by

- Roof Mounted A/C unit and no interior unit or shroud
- 2 Aluminum Foil insulated foam core ducts running length of trailer
- 12 – 13 out vents in multiple locations with 4 intakes
- Drip tubes running from A/C under trailer for drainage rather than running down roof line
- Increased roof thickness and insulation in roof
- Increased interior height

Headroom

Features and Benefits

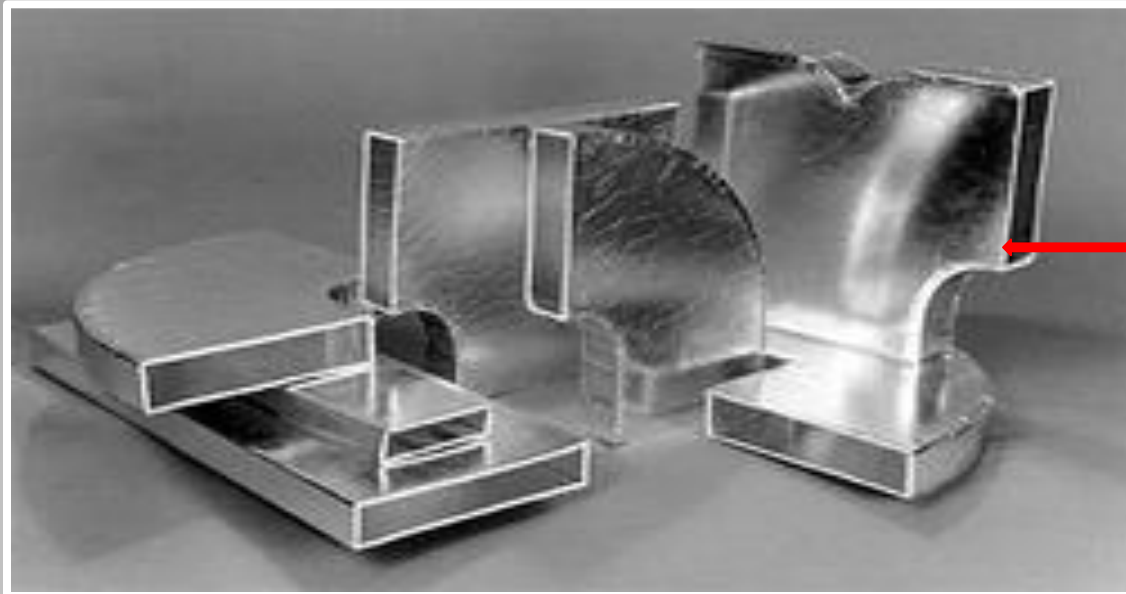

adventure, inspired by

Thicker roof trusses and added insulation in the roof

Nuts and Bolts of System

Laminated with
Polished Aluminum
Inside and Out

Ultra Ducts are foam
core sandwiched
between two layers of
aluminum foil providing
a barrier to heat
intrusion. Ducts are
lightweight, non-toxic,
and humidity resistant.

Nuts and Bolts of System

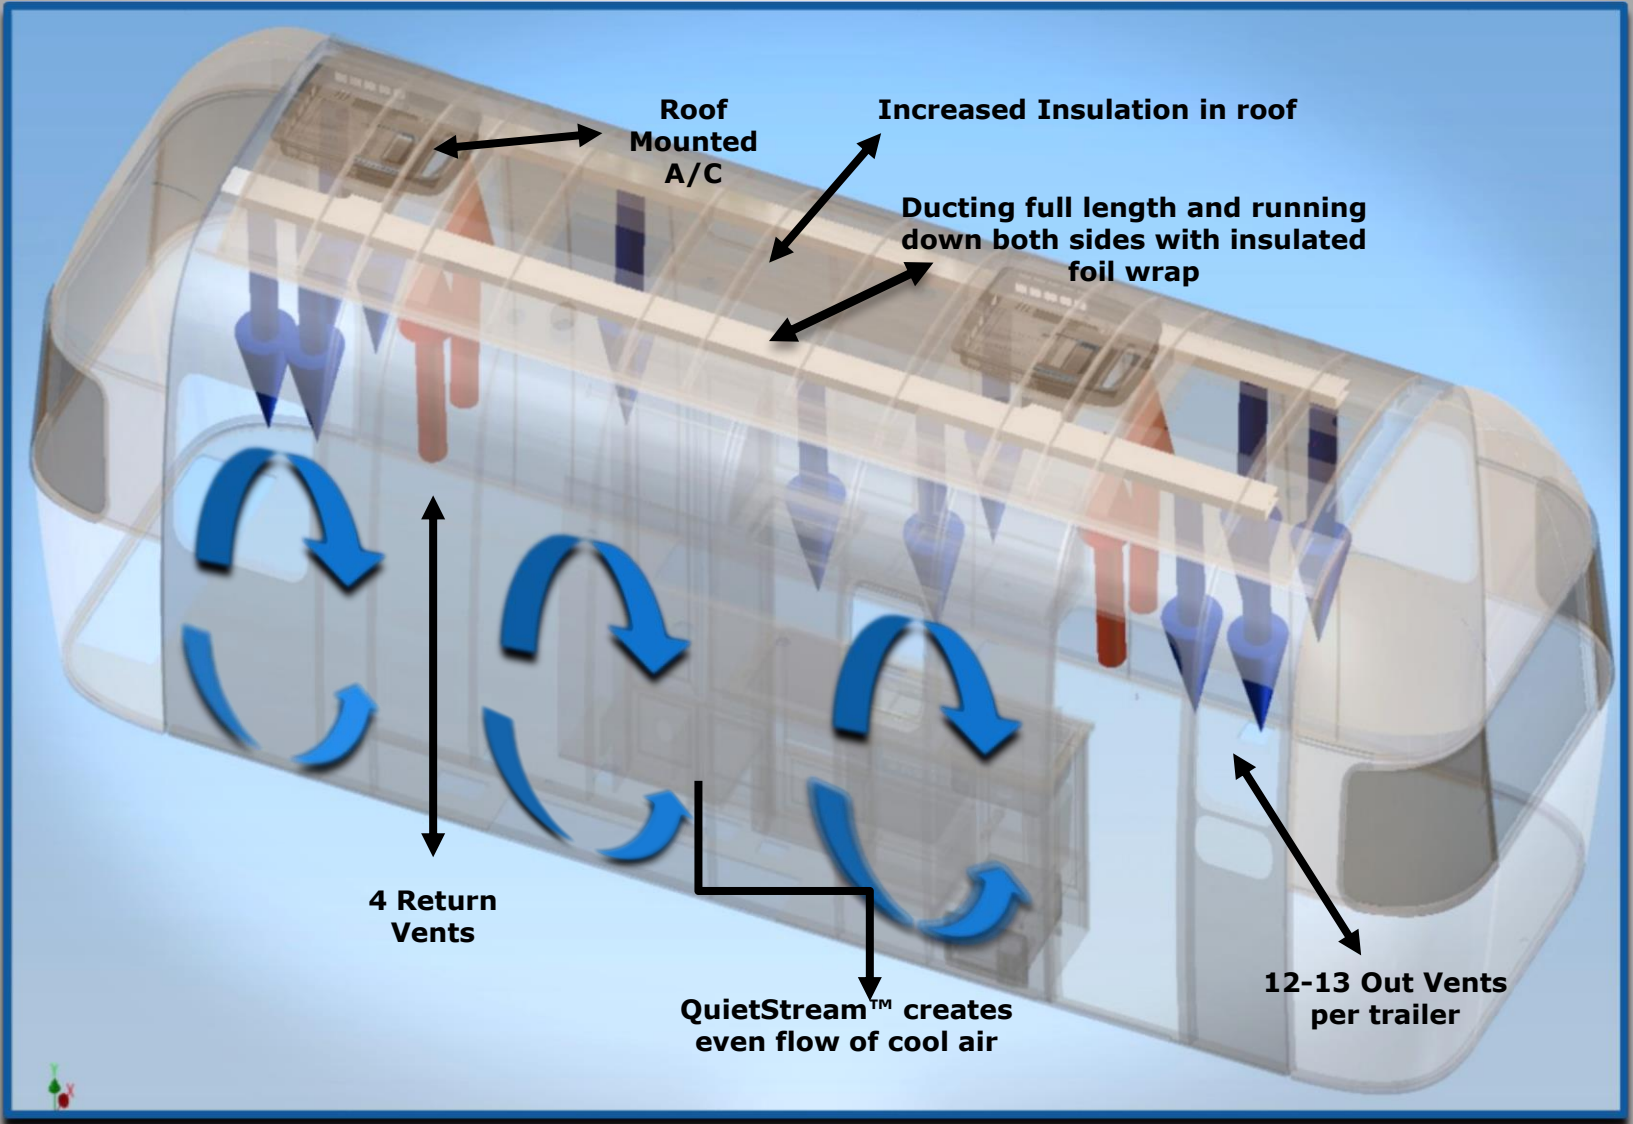

- Dometic 15k BTU A/C with heat pump standard on 25 ft and larger
- 2nd A/C unit Optional on 25 and larger with 50 amp service
- 2 units Standard on Classic and Land Yacht
