

## NEW NEW NEW NEW NEW!! IN-BED DIESEL FUEL TANKS

TITAN's cross-linked polyethylene (XLHDPE) in-bed tanks give you the advantages of advanced design and materials as well as TITAN's legendary quality and durability.

### Bobby E. Phillips: TITAN Customer

I want to express how pleased I am with the installation, as it was simple and I did not have any problems... by far the best design on the market. Having the peace of mind for the long haul is definitely a big Bonus. Hats off to Titan Tanks and their Team. Very pleasant experience with the purchase, shipping and the customer service. Definitely High Rated 5 Stars in my Book.

## EXTRA HEAVY DUTY!

Frame mounted, after axle 40\* Gallon replacement tank for some FORD cab and chassis trucks and E-Series vans with diesel engines. Tank is constructed of military grade cross-linked polyethylene (XLHDPE). Compatible with most bio-diesel fuel. Solves the problem of lining failure and corrosion in steel OEM tanks. Tank is light in weight, corrosion-proof, extremely durable and features a drain plug for easy maintenance. Complete with rollover vent valve, and vent hose. Fits in the place of the OEM stock tank and uses the existing sending unit. For diesel fuelled vehicles only.

## WHY CHOOSE AN UNDER-BODY TITAN FUEL TANK?

At TITAN, craftsmanship and quality are our Number One Priority. That's why we construct all of our aftermarket tanks with high density, military grade, cross-linked polyethylene (XLHDPE). This quality material not only assures your tank will perform in all temperature conditions, it also means your tank far exceeds the strength of stock! TITAN Fuel Tanks work with stock gauges and need no vehicle body modifications. Under-

body mounting means your whole truck bed is free to use, while giving you much more usable fuel to get the job done. TITAN is always expanding its product line. Chances are, we make one for you!

TITAN Tanks are the one aftermarket accessory that will keep you going when others stop.

**TITAN Fuel Tanks feature a 5 year limited warranty.**

## WHEN IT COMES TO FUEL... THE MORE YOU HAVE THE BETTER OFF YOU'LL BE.

At TITAN we take pride in helping people achieve the largest fuel capacity their truck can accommodate... we make it bigger and we make it better - no exceptions! Increased capacity brings the freedom of knowing that YOU choose when and where you stop for fuel. Additional fuel offers peace of mind when you want or need to put many miles behind you.

**Greg Kerlin:** TITAN Customer

*The Titan Tank is the best improvement that I could make on these trucks. I pull a 5th wheel trailer, and the big tank sure makes life a lot easier not having to stop so often.*

**Dewey Bordeaux:** TITAN Customer

*The installation instructions were "spot on" and the installation took about 2 hours. I couldn't be more pleased!*

## FIND YOUR UNDER-BODY TANK BELOW THEN GO LONG!

TITAN under-body Fuel Tanks easily mount in place of the factory tank and effectively **double your vehicle's fuel capacity** in most cases. Because of our under-body mounting, your whole truck bed remains available for use. All tanks work with factory fuel gauges and come with everything needed to replace the stock tank.
