1983 Airstream

fuel: diesel

transmission: automatic

1983 Airstream Limited 31' Motor home. New diesel motor and transmission installed in 1994 with less than 50,000 on it. This motor home has been maintained and every service record and maintenance receipt to go with it. This beauty when not out turning heads has been parked in an enclosed shop. Had new breaks and stereo installed Jan 5th. Will need some new tires. Magic chef appliances all working including built in ice maker and blender. Has central vaccum with all attachments.

Two couches in rear make out to king size bed with additional custom fit and made foam toppers.

Owner is also throwing a few little additional items such as chains, bungies,& custom curtains.

All original to keep it at it's original glory.
