Richard,

Great news about the FCU. I bet you had George lean on some people, didn't you? I miss the power.

I am going to have to be a no show at your rally. I was looking forward to the m-ball that you were telling me about the other day. Hillary has me on a tight leash, something about running for President. Heck, I told her that what you do in your personal life does not matter. Maybe you could give her a call. If she hears it from you, it might make a difference. If you could pull this one off, I will owe you big time, again.

Willie
